REQUEST FOR INTERIM MEASURES WORK PLAN (IM), THERMAL TREATMENT FACILITY AND AREA 1 BURN PIT – SOLID WASTE MANAGEMENT UNIT (SWMU). CAD 093 365 435, SANTA SUSANA FIELD LABORATORY, VENTURA COUNTY, CALIFORNIA

Dear Mr. Lenox:

This letter is a follow-up to the January 26, 2006 phone call between ourselves, Gerard Abrams and Steve Shestag regarding the Thermal Treatment Facility and Area 1 Burn Pit Solid Waste Management Unit (SWMU) at SSFL. DTSC had recently conducted an inspection of the Thermal Treatment Facility and Area 1 Burn Pit and other areas to observe the Best Management Practices (BMPs) implemented to stabilize potential migration of contaminants in soils following the Topanga Fire. DTSC appreciates the efforts by Boeing to implement stabilization measures at this and other solid waste management units at SSFL.

However, as we indicated during the phone call, DTSC believes it is prudent to implement additional corrective measures to insure contaminants do not spread from the SWMU. Please submit an interim measures work plan to DTSC by March 21, 2006, for removal of elevated dioxins and other constituents in soils and sediment as a result of past operations across the entire SWMU area (approximately 5 acres). Based on your response during this call, we acknowledge and appreciate Boeing's desire to initiate these efforts and look forward to receiving the work plan.

Mr. Arthur J. Lenox.jp
